#### ***Allowable Subject Matter***

2. Claims 1-10 are allowable. The following is a statement of reasons for the indication of allowable subject matter. Independent claim 1 is allowed because the prior art of record fails to teach or fairly suggest an optical modulator, or means for, comprising; a Z-cut lithium niobate substrate, a first ground electrode, a second ground electrode, and a hot electrode disposed on the buffer layer; the first ground electrode having a width approximately equal to the width of the respective waveguide, characterized by an asymmetrical electrode structure in which, the hot electrode and the first ground electrode have a width substantially less than that of the second ground electrode; in combination with the other claimed recitations. Claims 2-10 are allowed by virtue of their dependence on claim 1.
